

# SECURITY LINK DOORS™

## YOUR COMPLETE LOADING DOCK, VENTILATION & SECURITY SOLUTION

Since 2001, our tough-as-nails Security Link dock doors have guarded perimeters, increased security, and brought the best of the outside in.

Custom built to your exact specifications with galvanized chainlink, Rasco doors and screens provide years of reliable service and security you can see right through.

### WORKS WITH YOUR EXISTING DOOR

DUAL TRACK

SWITCH TRACK

Add a Rasco without replacing your door.

### THE STRENGTH OF STEEL

Don't compromise on safety, security, inventory control, or loading dock fall protection. Our **11 gauge galvanized chainlink** provides unmatched strength.

Unlike other materials, steel will not tear, shrink, warp, swell or settle and is highly cut-resistant.
